

Coast Along

Singapore's homegrown lifestyle brand, Coast Cycles, debuted its latest in utility and adventure—the Quinn cargo bike—at this year's SingaPlural, a showcase of the best design elements from a multi-faceted spectrum of creative industries. A sleek cargo cage that ensures baggage is cradled securely is added in the middle of the bike frame by integrating the top and down tubes to create a lower centre of gravity, which allows for a comfortable, stable and safe ride.

THE COAST CYCLES QUINN CARGO BIKE BY THE NUMBERS:

1	Materials used for each bike (aluminium)
2	Other colourways considered in production (gloss white and matte black)
2	Number of speed configuration options (3-speed and 11-speed)
